

DOMAINE DUJAC

MOREY-SAINT-DENIS *Rouge*

GRAPE VARIETY : Pinot Noir

PLOT : 7.21 acres (2 ha 91 ares 97 ca)

The red wine from Morey-Saint-Denis comes from 6 plots at the foot of the slope, west of the road (RD 974), and east of the village of Morey-Saint-Denis, where the slope is slight (3%). The plots range in altitude from 249 to 264 meters, facing northeast to due south.

The loamy soil is less stony than higher upslope, with patches of Comblanchien limestone fragments in some parts.

The plots for the Morey-Saint-Denis village wine lie on two different types of substratum. Some plots overlie fine deposits, laid down over millions of years, that gradually filled in the fault trough (graben), while other plots overlie alluvial fan deposits at the mouth of the valley (Combe de Morey-Saint-Denis).
